

Flexi A50

Professional Audio

Description

With its revolutionary design, Vicoustic's Flexi Panel A50 is truly effective when applied in any type of space. A scientific combination of material, absorption surface and cavity thickness means that the panel's absorption performance is extremely efficient in the treatment of 1st reflections.

Flexi Panel A50 offers you the best performance on medium and high frequencies. Commonly applied in particularly demanding rooms such as recording or broadcast studios, the panel provides one of the best acoustic solutions on the market, at an attractive price. It also has a unique characteristic - when placed in a sequence the panel junctions become undetectable, allowing you to hide cables in the cavities.
